**Motivation/Purpose :** Project name is a modern health service system, built by the students of SUST for the students, teacher and employee of SUST. Project name provides student with the necessary information that they want and need which saves them from a lot of hassle. This System provides information about medical centers and the whereabouts of expert doctors. Students no longer have to travel 1 hours just for one checkup and then find that it wasn't available.

## Features/Functionalities :

1. Medical Doctors List, Information and Treatment Procedure(Medical Center).
2. Specialized Doctors List, Information and Treatment Procedure (Hospitals & Chambers).
3. The students will be able to complain/comment about the type of medical service they are getting.
